25 September 1994  
Survey Report #HM1368  
Survey on Auxiliary Seawolf Ketch "Star Rover"  
Official Numbers CF 7590 ET  
for  
Condition & Valuation

The following observations and/or non-standard conditions were noted:

1. The topsides and underbody planking were found to be in very good condition. Caulking seams found tight and dry.
2. No systems were seen in operation, vessel owner shall make sure all are in proper working order.
3. On the lower stem there appears to be collision damage repairs. On port are five shorter planks and on starboard there are four. Also, a lead patch 25 inches long was put on to cap the stem leading edge. Normally longer planks would have been installed. No damage seen on inside.
4. Some minor deficiencies were found and pointed out that are being corrected.
5. The fire extinguishers need to be serviced and new tags issued with date of inspection.

No recommendations were made.

The services rendered herein and the report furnished herewith are done with the distinct understanding that the undersigned is not responsible or liable under any circumstances whatsoever for any error, omission, negligence or failure to properly perform the requested services, and that all matters and statements contained in this report constitute statements of opinion only, and are not to be construed as representations, warranties, or guarantees and that no statements made herein or in connection herewith shall be the basis for any claim, demand or action against the undersigned. The request for survey shall be construed to be an acceptance of the above conditions.

This survey and report thereof is given without prejudice to the questions of right and/or liability on the part of any or all persons concerned or interested.

Estimated Fair Market Value: \$60,000.00  
Replacement Value: \$240,000.00
